The Education and Exam Regulation is applicable to all students who are enrolled at Hotelschool The Hague and is effective from 1st of September 2020 unless stated otherwise.

Article 1.3 Ratification and amendments to the regulation

1. The provisions specific to the educational programme are determined by the Board of Directors prior to the start of the academic year. The Bachelor Management Team is responsible for the formulation of provisions specific to the educational programme. Ratification occurs only after the Co-Determination Council has given its advice/consent, as far as this is required. 3. The procedure as referred to in the first paragraph of this article must be followed if amendments to this regulation are made.
4. If the interests of an individual student are prejudiced as a result of a preliminary amendment, the student in question may submit a substantiated appeal to the Exam Committee against the application of the amendment in question. Chapter 2 Basis of the educational programme

Article 2.1 Purpose of the programme and competencies

The content of the educational programme is based on the professional situation of an international hotel manager. The professional profile of an international hospitality manager is described in nine separate Professional Duty Categories (PDCs) and two Professional Excellence Categories (PECs).

The categories are based on the National professional and educational profile 2012-2016" CROHO 34411, 20 June 2013, Stichting Landelijk Overleg Hoger Hotelonderwijs.

This profile came about at the order of five Dutch Hotel Management schools in higher education that account for and justify the profile of the licence of the higher economic sector council and the HBO council. The PDCs and PECs form the basis of the educational programme: the content and teaching of subjects.

Currently Hotelschool The Hague is developing new courses (for details see appendix 1) which will be based on the revised **Educational Framework**. One of the components of the revised Educational Framework is the Professional and Educational Profile (PEP 2017-2022), created by the Association of Dutch Hotel Management Schools. For newly developed courses, the Professional Duty Categories (PDC) and Professional Excellence Categories (PEC) will be replaced by Programme Learning Outcomes (PLOs). This means that other courses which are not renewed or redeveloped for academic year 2020-2021 are still based on the PDCs and PECs as described below.

Professional Duty Categories (PDC)

- PDC 1** Understanding the ins and outs of creating and providing hospitality.
- PDC 2** Initiating and creating new hospitality products and services independently, innovatively and in an enterprising manner.

- PDC 5** Analysing financial performance, the internal hospitality environment, information and processes to strengthen coherence and interaction (reciprocity)

- PDC 7** Dealing with the powers and influence of (external) stakeholders, i.e. owners, banks, regulators, distributors, clients, society, etc. etc.
- PDC 8** Optimizing human resources in the light of the organizational strategy.
- PDC 9** Developing, implementing and evaluating change processes.

Professional Excellence Categories (PEC)

PEC 10 Putting into practice and applying social, communication and language skills

PEC 11 Putting into practice and applying self-direction and intrapersonal skills.

For the Practical placement of 30 ECs, the Exam Committee can grant an exemption based on a student's individual application.

Article 3.7 Selection

Hotelschool The Hague entry policy is based on selecting students who want to enrol for the first year of the Bachelor programme or the International Fast track programme, which is part of the Bachelor programme. The application and selection procedure and criteria are described in the Application and Selection regulation of Hotelschool The Hague.

Article 3.8 Students with an impairment

1. Students with an impairment are legally entitled to effective provisions, unless they claim an undue proportion of the organisation or resources of the programme or institute of higher education.
2. Provisions must serve to remove or reduce obstacles so the student has the opportunity to successfully complete the programme. Provisions must help the student to be independent and participate as fully as possible. The provisions may involve adaptations in the educational programme (including placements), study rosters, different format or duration of assessments, educational tools and other educational facilities.
3. The Exam Committee decides on requests for provisions related to taking part in assessments taking into account the requirements the school poses regarding knowledge, understanding and skills necessary to obtain the degree as referred to in article 7.4. In all cases, the student must meet the end terms of the programme.
4. A student wishing to qualify for specific provisions referred to in the second paragraph, must apply to the student counsellor. Within 10 working days after the application is received, the student will receive an invitation for an interview, which will take place no later than 20 working days after receipt of the application. In the interview the impairment of the student will be charted and the provisions discussed that could support the student during their study. The student makes sure that they bring the necessary written proof by an independent expert that documents the impairment. On the basis of the interview, the student counsellor and the student compile a document that will contain a request for provisions and the student counsellor's recommendations. This document is signed by both parties. Depending on the nature of the provisions, the student also submits the document as a request to the Exam Committee.
5. The Exam Committee decides on a request as referred to in paragraph 4, within four weeks after receipt of the request, unless a request necessitates further investigation. In that case, the student will be given a definite answer when a decision on their request will be made.
6. If a student submits the request to the wrong party, that party sends the request as quickly as possible to the correct party.

Article 3.9 Students who practice sport at top-level

1. Students who practise top-level sport and are in the possession of an A, B, HP status determined by the NOC*NSF, or regional status R-1 awarded by the *Regio Steunpunt Talent en Topsport* in The Hague may be eligible for effective provisions.
2. The Exam Committee decides on requests for provisions related to taking part in assessments, taking into account the requirements the school poses regarding knowledge, understanding and skills necessary to obtain the degree as referred to in article 7.4. A member of the Board of Directors decides on requests for other provisions.
3. A student wishing to qualify for specific provisions referred to in the second paragraph, must apply to the student counsellor. Within 10 working days after the application is received, the student will receive an invitation for an interview, which will take place no later than 20 working days after receipt of the application. In the interview, the burden that the practice of top-level sport involves will be charted and the provisions discussed that could support the student during their study. The student makes sure that they bring the necessary written proof such as training and competition schedules. On the basis of the interview the student counsellor and the student compile a document that will contain a request for provisions and the student counsellor's recommendations. This document is signed by both parties. Depending on the nature of the provisions, the student also submits the document as a request to the Exam Committee and/or a member of the Board of Directors.
4. The Exam Committee decides on a request as referred to in paragraph 3, within four weeks after receipt of the request, unless a request necessitates further investigation. In that case the student will be given a definite answer when a decision on their request will be made.
5. If a student submits the request to the wrong party, that party sends the request as quickly as possible to the correct party.

Chapter 4 Content and organization of the programme

Article 4.1 Type of programme

Both the bachelor programme and the International Fast Track (IFT) programme are full-time educational programmes.

Article 4.2 Location

The student is enrolled in the Bachelor Programme on the Amsterdam Campus or The Hague Campus. The bachelor programme, exam programme and assessments on both locations are identical to each other. In some cases, a certain course in programme year 4 might only be offered at one location whilst students from both locations participate in said course.

Article 4.3 Language

Both the bachelor programme and the International Fast Track programme are taught in English; the assessments are administered in English, with the exception of the courses for second foreign languages. Where the use of the English language is concerned, a code of conduct is in effect (appendix 2).

Article 4.4 Scale and duration of the Bachelor Programme

1. The HBO bachelor programme consists of a Propaedeutic Phase consisting of 60 ECs and a Post-propaedeutic Phase consisting of 180 ECs. The purpose of the Propaedeutic Phase is threefold: orientation, selection and/or referral.
2. The total bachelor programme consists of a total of 240 ECs; one EC represents 28 hours of study. The standard duration of the study programme is 4 years. One year of study consists of 60 credits (1,680 hours of study).

Article 4.5 Structure of the Bachelor programme

1. The programme comprises three cohesive phases. Each phase corresponds with a specific learning conception level which is integrated into the courses within a phase (appendix 1 for an overview of the courses and the ECs for the 4-year bachelor programme). The three phases are:
 - Phase 1: Grasping and applying theory through interaction and shaping (1 year; 60 ECs)
 - Phase 2: Complete understanding of the subject matter by building expertise (1.5 years; 90 ECs)
 - Phase 3: Understanding reality by travelling with equals (1.5 years; 90 ECs). Each year or phase comprises multiple courses for which students receive the associated number of ECs upon successful completion.
- B) Phase 2 starts with a Practical Placement worth 30 ECs. This training takes place outside school.
- C) Phase 3 concludes with the graduation course "Launching Your Career" which also comprises an external placement component.
- D) For the following components a minimum number of ECs and/or courses must have been achieved.
 - To start "Practical Placement", students must have met the RDP norm (see article 5.3)
 - To start the course Making Financial Decisions, the students in the September 2021/22 intake (711) need to have passed the course Creating Business Value (CBV)
- If a student fails to achieve 126 ECs, including all phase 1 courses, after the fifth block in phase 2, they will be required to meet their personal tutor for a progress meeting for which the student has

to prepare a plan of approach on how to improve their study progress. IFT students have to achieve 66 ECs (excluding the Propaedeutic and including Practical Placement) otherwise they will also be required to meet with their tutor and write a plan of approach on their progress.

- To start with "Launching your Career LER" (LYCar execution & report, including the external placement) students must have passed:
 - All phase 1 and phase 2 courses
 - "Launching your Career CLP" or "Professional Development – Preparing My Career" and have 9 ECs or fewer open from the following phase 3 courses:

 - "Business English 3"
 - "Electives/Minors"
6. Within a phase or year, there is no set order for following the corresponding courses. The exception is the "Checking In" course in Phase 1 (always the first course of the curriculum). The path the student follows is determined by the school.
7. In Phase 3, year 4 the student must pass a minor course with a total worth of 12 ECs (ac year 2021/22). The student must enrol themselves for an elective, because they may choose their own electives. The procedure to enrol for a minor is described on Myhotelschool.nl. Students of the February 2016 intake, September 2017 intake (662 intake) or earlier were required to complete 12 ECs through electives.

Article 4.8 Composition of the assessment programmes

The assessment programme is described in more detail in the individual course syllabus and appendix 6.

Article 4.9 Transfer to newer curriculum with associated assessments

Should changes occur in the assessment programme in consecutive years the Exam Committee will determine a transition regulation.

Article 4.10 Assessment form guarantee

The assessment form of a second or subsequent assessment during the same academic year of the first assessment should cover the same learning goals as the first assessment. If an assessment cannot be retaken in a comparable assessment with the same areas of knowledge, skills or attitude in another block,

the student must, in the event of a fail, be offered an opportunity to retake the assessment. This opportunity as determined by the Exam Committee at the request of the examiner concerned may be in the form of an additional or substitute assignment and/or other form of assessment, provided that the same assessment criteria and learning goals are assessed. The last achieved result counts.

Article 4.11 Assessment content guarantee

The assessment content of a second or subsequent assessment during the same academic year of the first attempt must be identical to that of the first assessment. If the content of the course is changed, the student is given two opportunities in the academic year following the change to take the assessment in the manner described prior to the change. In case of special circumstances with regard to a certain course, the Bachelor Management Team may decide that there will be more re-sit chances available.

Article 4.12 Placements and excursions

1. Information about placements followed by students outside Hotelschool The Hague and that are part of the school's programme, is incorporated in the Practical Placement Course Syllabus and Launching Your Career (LyCar) Course Syllabus. Other relevant documents will be placed on the worksite of the Placement Office.
2. The rights and duties of the student vis-à-vis Hotelschool The Hague and professional practice are recorded in writing in a placement agreement.
3. Excursions are only mandatory when they are included as such in the study programme of the Education and Examination Regulation.
4. A student who is unable to participate in a mandatory excursion due to circumstances beyond their control and/or personal circumstances, is given the opportunity of compensating this excursion with a substitute assignment.
5. During the placements, the student remains enrolled as a student of Hotelschool The Hague and must therefore pay tuition fees.

Article 4.13 Continuous improvement

1. Hotelschool The Hague aims at reaching the highest possible (personal and professional) level, so that students are optimally prepared for a career in management of the international hospitality industry. This is achieved by setting high quality requirements for students, lecturers and instructors, content and implementation of the curricula and supporting processes. The systematic Quality Assurance & Improvement method chosen by Hotelschool The Hague contributes to further establishing the formal quality management system. The aim is to continuously improve the quality of education, research and the organization.
2. An important part of the Quality Assurance system are the course evaluations, which are conducted in a cycle time of at least once per year per course (see appendix 5). These evaluations provide input for the improvement of the courses. Changes in the learning outcomes, assessment structure and course setup take place once per year. However, changes in the way of delivering content in these set classes can happen every block.

Chapter 5 Study advice and student tutoring

Article 5.1 Study advice

1. At the end of the first year of enrolment in the Propaedeutic Phase, each student receives an advice from the Board of Directors concerning the continuation of their studies at or outside the school.
2. In addition to the advice named in the first paragraph, the Board of Directors can give a study advice to the student after the first year of enrolment if they have not successfully passed the Propaedeutic Exam.

Article 5.2 Binding Recommendation to Discontinue the Programme

1. By or on behalf of the Board of Directors, a recommendation on continuation of the studies, as intended in article 5.1, can be combined with rejection for the bachelor programme, hereinafter referred to as a binding Recommendation to Discontinue the Programme (RDP).
2. A binding RDP is only given when the student, at the discretion of or on behalf of the Board of Directors, once given due consideration to any personal circumstances, is deemed not to be suitable for the bachelor programme.
3. Enrolment for the bachelor programme of a student who received a binding RDP, as referred to in the first paragraph, is terminated in compliance with article 7.42, paragraph 3 of the WHW effective from the month following the month in which the decision regarding a binding RDP has been made.
4. A binding RDP is given at the latest at the end of the first year of enrolment for the Propaedeutic Phase of the bachelor programme.
5. Any student who has received a binding RDP can enrol again for the bachelor programme after two years. To this end they must submit a substantiated written request to the Board of Directors. A positive decision is only taken by or on behalf of the Board of Directors, if the student concerned has made it sufficiently plausible that they have developed to such a degree during the period between the binding RDP and the submission of the request to be re-enrolled for the bachelor programme that they will now be able to complete the programme successfully.

Article 5.3 Conditions binding RDP

1. The student who started with intake February 2016 (652 intake) or earlier receives a binding RDP at the end of their first year of enrolment for the Propaedeutic Phase, if the student did not attain at least 45 ECs, including the course RIB and/or the course CBV, at the moment that the binding RDP is issued.

The student who started the bachelor programme on 1 September 2016 (661 intake) up to and including intake February 2018 (672 intake) receives a binding RDP at the end of their first year of enrolment for the propaedeutic phase, if the student did not obtain at least 51 ECs at the moment that the binding RDP is given.

The student who started the bachelor programme on 1 September 2018 (781 intake) up to and including the February 2020 intake (702 intake) receives a binding RDP at the end of their first year of enrolment for the propaedeutic phase, if the student did not attain at least 51 ECs, including the course CBV, at the moment that the binding RDP is given. The student who started the Bachelor programme on 1 September 2021 (711 intake) or later will received a binding RDP at the end of their first year of enrolment for the propaedeutic phase if the student did not attain at least 51 ECs at the moment the binding RDP is given.

2. A binding RDP can only be given if the student was warned, at the end of their second study block (B or D) by or on behalf of the Board of Directors in a reasonable time period and at least once in writing that they shall receive a binding RDP in case of continued insufficient study progress. This warning includes a reasonable time limit within which the student must have improved their

study results as well as a description of the consequences of a binding RDP. The student who has attained fewer than 24 ECs at the end of the second study block receives a letter of caution from or on behalf of the Board of Directors.

3. The student who has attained 24 ECs or more at the end of their second study block receives a letter of encouragement from or on behalf of the Board of Directors in which it is brought to the attention of the student that at the end of the first year they must at least comply with the requirements as imposed in the first paragraph and the consequences, should this not be the case.
4. The student is given, as intended in article 7.8b, paragraph 4 of the WHW, the opportunity by or on behalf of the Board of Directors to be heard before proceeding with a binding RDP. A decision to give a binding RDP is substantiated in writing and is sent to the student accompanied by information about the possibility of lodging an appeal.
5. If special personal circumstances affected the study progress of the student, then it falls under the responsibility of the student to see to it that the Board of Directors is informed accordingly in a timely manner, at the latest when heard. The student accompanies the notification of their special personal circumstances by the necessary documentary evidence. The student can give the notification via the student counsellor. The student counsellor as well as (the person responsible on behalf of) the Board of Directors see to it that notifications of special personal circumstances are handled confidentially.
6. The student who fails to report special personal circumstances in a timely manner can no longer rely on said circumstances once the binding RDP has been issued, unless the student demonstrates that the special personal circumstances did in fact prevent the timely notification.
7. In the situation when a binding RDP is waived by or on behalf of the Board of Directors on account of the notification of special personal circumstances, then the RDP decision will be extended till the following academic year later. Conditions may be imposed on this recommendation.
8. Students who did not comply with the requirement as intended in the first paragraph and who obtain an extension of the period in which the circumstances must be met as intended in the eight paragraph are not entitled to participate in courses from the post-propaedeutic phase (including practical placement).

Article 5.4 Personal tutoring

1. During the educational programme the student shall need to keep himself informed of their study results and their study progress via Osiris.
2. The student shall, whenever their study results justify this, be invited to discuss the results and the consequences thereof with their personal tutor.
3. In the first year of the study programme the student has regular meetings with their personal tutor. These meetings consist of both group meetings and individual meetings. In the first year, the guidance is compulsory and ongoing. If the study results of the student, at the discretion of the personal tutor, give cause to this then additional meetings, next to the scheduled activities, can take place between the student and the personal tutor.
4. After the first year, the student has also meetings with their personal tutor either at the request of the student or at the request of the tutor if the study results give cause to a meeting. A minimum of two individual meetings per academic year are required. The students of the 4-year programme who started in September 2017 or later will have to pass the course Professional Development – Career Launching Tools. For the students of the IFT programme, this applies to the students who started in September 2018 or later.

Article 5.5 Progression from propaedeutic phase to post-propaedeutic phase

1. The following students can progress from the propaedeutic phase to the post-propaedeutic Phase. Admissible are:
 - a. students who completed the propaedeutic exam successfully;
 - b. students who comply with the norm as determined in article 5.3, first paragraph.

2. The timetabling of the study programme is leading. Students are not allowed to follow courses from different phases (phase1, phase3 or phase3) at the same time.

Article 5.6 Record of student progress

1. The Hotelschool ensures that the student's academic achievements are carefully and accurately recorded.
2. The students have access to their academic achievements at all times through an internet link with the Osiris student records system.
3. If a student is enrolled at more than one institute of higher education, the institute at which the student has paid the full amount of tuition fees will determine their progress through the programme. This is achieved by adding together the number of ECs obtained at both institutes after the student has produced written proof of the ECs obtained at the other institute.
4. It is the student's responsibility to monitor the accuracy of their results in the school's student records system (Osiris). In the case of incorrect or incomplete records in the system, the student is to report to the assessor concerned and/or the Service Desk.
5. Grades are considered to be definite 4 working days after the exam review has taken place, unless the student submits an appeal to the Exam Committee. The Exam Committee appeal procedure is described in Chapter 9.

Article 5.7 Dis-enrolment and interruption of enrolment

1. Each student has the right to terminate their studies in the course of the academic year and disenroll.
2. Re-enrolment in the same academic year is only possible per first September or first February.

Chapter 6 Assessments

Article 6.1 Assessments

1. Each course is concluded by means of an assessment. An assessment can consist of one or several components.
2. If all assessment components of the course have been passed, the ECs for the corresponding course are awarded in the study progress monitoring system Osiris.
3. All forms of assessment include an assessment of the knowledge, the understanding and the skills of the student, as well as the results of that assessment.
4. An assessment can take place as an oral or written assessment or in some other form. The assessment form for each assessment component is indicated per course in the course syllabus of the specific courses.
5. In special cases, the Exam Committee is authorized, on the basis of a written and motivated request, to determine whether to deviate from the course syllabus and in what way/how an assessment will be taken. The Exam Committee has a period of four weeks after receipt of the request in which to make its decision. It is the responsibility of the applicant to submit the request in time.
6. In subsequent academic years, the name and form of an assessment of a course may be amended, provided that assesses the same content and is specified in the course syllabus. If the content of the course is changed, the student is given two opportunities in the academic year following the change to take the assessment in the manner prescribed prior to the change.

Article 6.2 Organization of assessments (WHW article 7.13, paragraph 2)

At the beginning of each course, the examiners/lecturers must inform the students with regard to the assessments that belong to that particular course, and in particular about the following:

- a. The content (subject matter) of the assessment;
- b. The requirements the student must fulfil in order to pass;
- c. The number of ECs for the course for which the assessment is the conclusion;
- d. The form of the assessment;
- e. Any materials that students are permitted to use during the assessment;
- f. Whether participation in taught activities is mandatory or not;

2. For year 1 students the following applies:
 - all workshops are mandatory and active participation is required. This is also applicable for students of other phases following a first year course;
 - students are offered two chances to take an assessment;
 - if the student attends 80% or more of the lessons of the mandatory classes, as specified in table 2, they may receive a third assessment chance for all course components of a course, if an exam opportunity is still available in the current academic year. The exact number of classes that must be followed and the rules concerning attendance are included in the relevant course syllabus. For the practical training courses and courses with a portfolio other rules apply. These rules can be found in the relevant course syllabus.

There is a difference in Phase 1, 2 and 3 for the assessment opportunities per year, as explained in Table 3.
4. a. A student is allowed to re-sit an assessment only if they failed to pass the assessment the first time.
b. In derogation from the foregoing under a. there is one exception:
 - In courses where the assessment is completely made up of an individual grade, a student is allowed to re-sit the assessment once if the student wants to improve their grade after passing the course for the first time. To do so the student has to apply with the Exam Committee for special permission at least five weeks before the assessment. The students who still have valid vouchers must use a voucher for the re-sit.
Students who started in September 2019 (791 intake) or later get one possibility per Academic Year to re-sit the assessment to improve his/her grade. They also have to apply with the Exam Committee.

Appendix 2 English Education – Code of Conduct

Article 1 General

1. This Code of Conduct applies to the provision of educational programmes in another language, in this case English, within the Dutch educational system, including the use of instructional aids and methods.
2. The Board of Directors, after consultation with the parties involved at the Hotelschool, decided that from the 2008-2009 academic year onwards, the official language of the educational programme would be English, taking into consideration the following factors:
 - a) The necessity and desirability of the use of the English language as language of instruction lies in the specific nature, the organization and the quality of the educational programme and origin of Hotelschool The Hague's students; The Bachelor programme has a particular international orientation; the labour market for which our students are being prepared has an international orientation; the Bachelor programme includes an intercultural exchange which is necessary for students to gain the proposed knowledge, insights and skills and the educational programme is provided in close cooperation with businesses with an international orientation;
 - b) The use of the English language as language of instruction does not lead to an unreasonable increase of the study load of the theory part of the programme;
 - c) The quality of the educational programme is not negatively affected by the use of the English language as language of instruction;
 - d) Students are informed about the fact that the programme or parts thereof are offered in a language other than Dutch (English). This obligation to inform does not apply if it concerns course components which are occasionally given in a foreign language.
3. Lecturers who teach in a language other than Dutch, have a good command of the language of instruction. Hotelschool The Hague guarantees that lecturers are skilled at teaching in the other language.
4. A good command of the language of instruction is important for effective participation in course components taught in another language. In the admission requirements for the programme, the necessary entry level is clearly stated, in compliance with the Hotelschool's guidelines regarding language level as an admission requirement. In those cases where no additional requirements may be imposed, the entry level is included as a recommendation.
5. Non-compliance with this decision may lead to the imposition of sanctions.
